To Whom it May Concern,

After using Benchmark Construction for multiple building projects since 2005, it is my pleasure to offer this letter of recommendation.

I have been working with Benchmark Construction and Tom Haugh for many years and have always had great experiences with them. They have done work on all multiple projects for us including our store in Dover, two warehouse projects, and many smaller projects. From project management to the final product, they have done an exceptional job on all of our facilities.

Tom and his staff have always been responsive to any requests and present themselves and their job sites clean and professionally. From start to finish, our experience with Benchmark has been nothing short of excellent.

I am confident Benchmark Construction would perform at a high level with any project and we look forward to working with them again in the future.

Sincerely,

A handwritten signature in cursive script that reads "Mike Davis".
